# Website Instructions

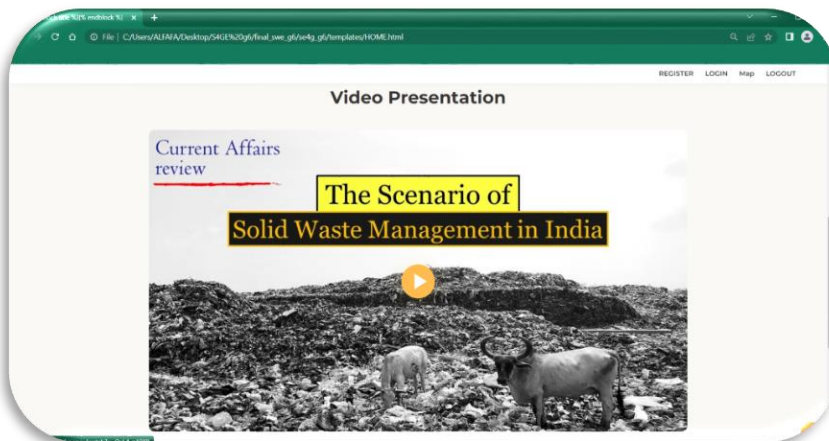

## This is the /homepage

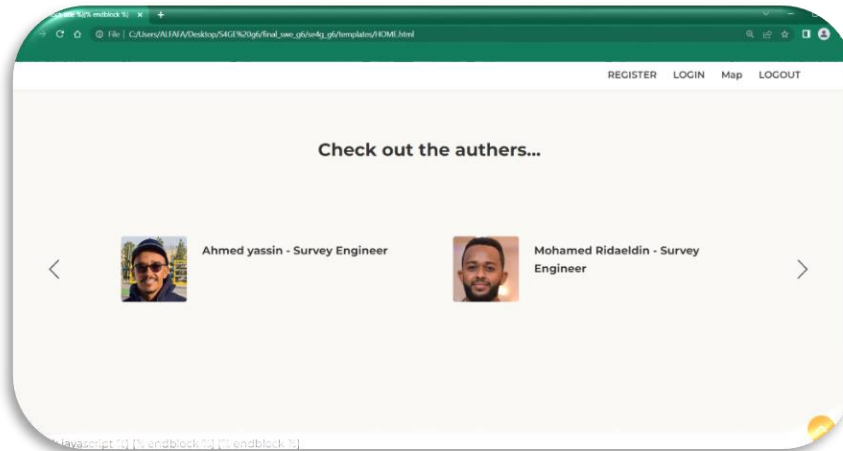

The homepage contains the main functions of the website which are registration, login, logout and map icons. Moreover, slide photos are represented to show examples for solid waste areas.

When the user scrolls down in the /homepage a representative video describing the scenario of solid waste management in India shows up.

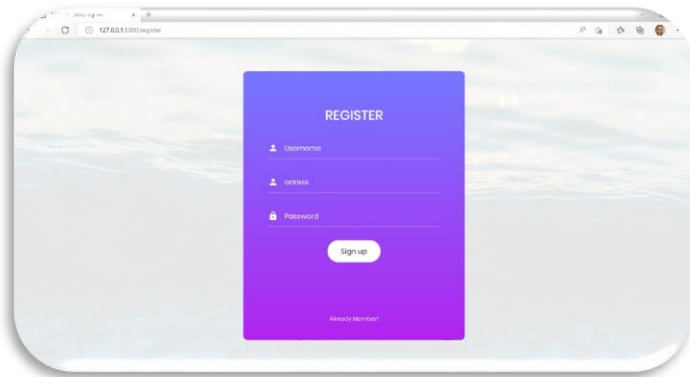

Users can know more about the website's creators at the bottom of the /homepage.

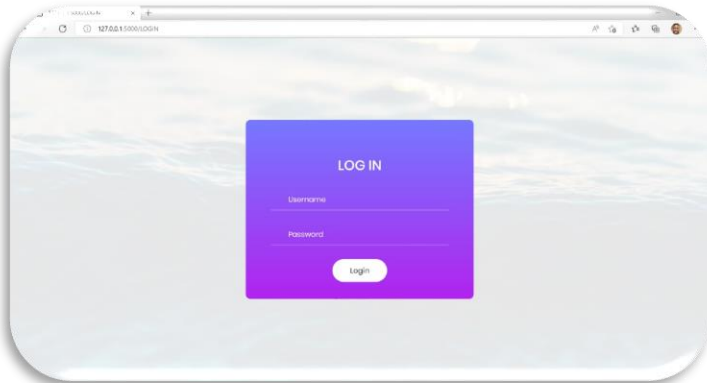

## **/REGISTRATION page**

When a user clicks on the registration button on the home page, the following page appears with three inputs to be filled (Username – Address – Password) before proceeding to the /login page.

## **/LOGIN page**

The login page appears; either by having the user completing the registration correctly, or clicking on login icon directly in the /homepage.

## /MAP page

Clicking on the map's icon, the map page shows up representing distributed various areas of garbage, with description for each.
